Introduction to Dashboard

Volkai HR Agency Dashboard helps agencies manage the entire hiring process easily.

- See all job posts and applications in one place.
- Track mock interviews to check candidate readiness.
- View shortlisted and rejected candidates quickly.

Our vision is to democratize access to high-quality interview preparation, helping job seekers build confidence and bridge the gap between potential and employment.

With **Volkai HR**, we aim to empower every candidate to perform their best by leveraging cutting-edge artificial intelligence that simulates real-world interviews and provides expert feedback.

Our goal is to create a world where talent gets recognized, regardless of location, background, or network, provide opportunity to all.

Volkai HR is "India ka, India se, India ke liye AI" solution for transforming how interviews and hiring decisions are made.

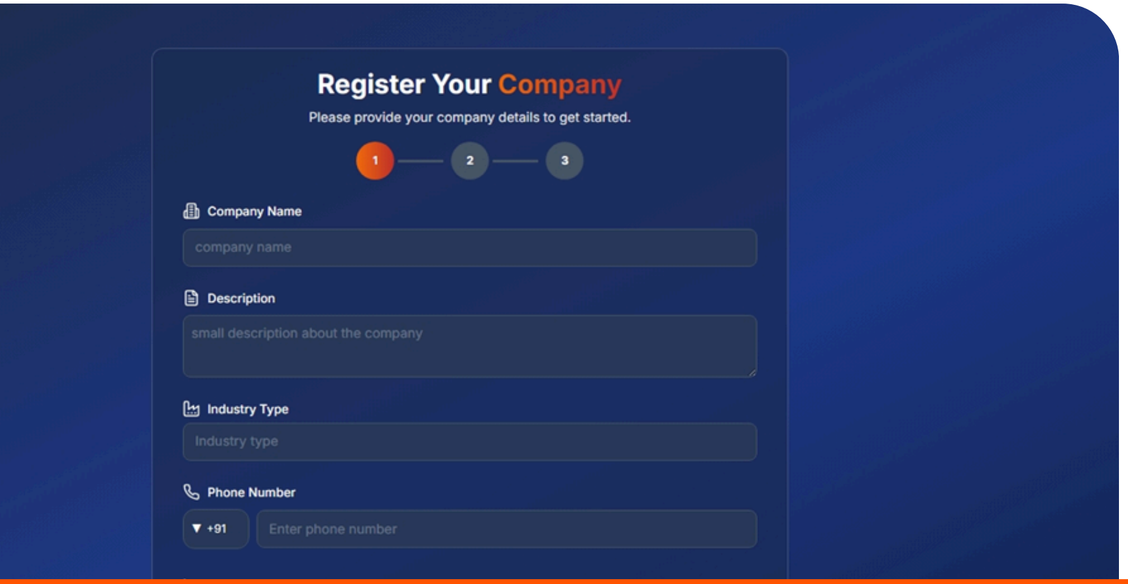
HOW IT WORKS?



Step 1

Create your company account by registering on www.hr.volkai.io.

Step 2

You will need to provide your company details, GST number, and upload mandatory documents such as MSME, COI, MOA, or PAN along with your company logo.

Step 3

Once submitted, your account will be verified by the Volkai team within 24 hours.

- Once your are registered , you'll be able to access the dashboard , After Verification done, company dashboard looks like this where company can see from job posts to **interviews, track applicants, performance, and insights** — all in one place.

- Access the **Employee tab** to add team members who require permissions for hiring activities.
- Provide their **name, email** address, and **phone number.**
- Once added, the employee will receive their **login credentials** via email.

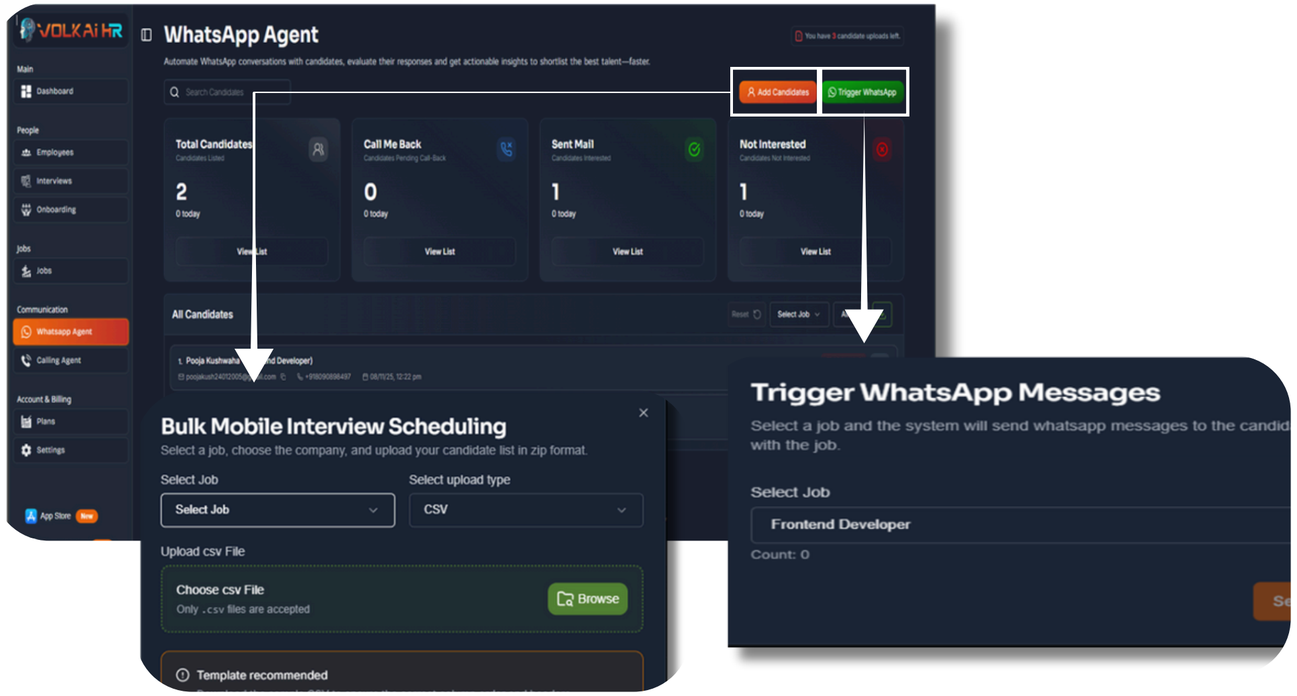
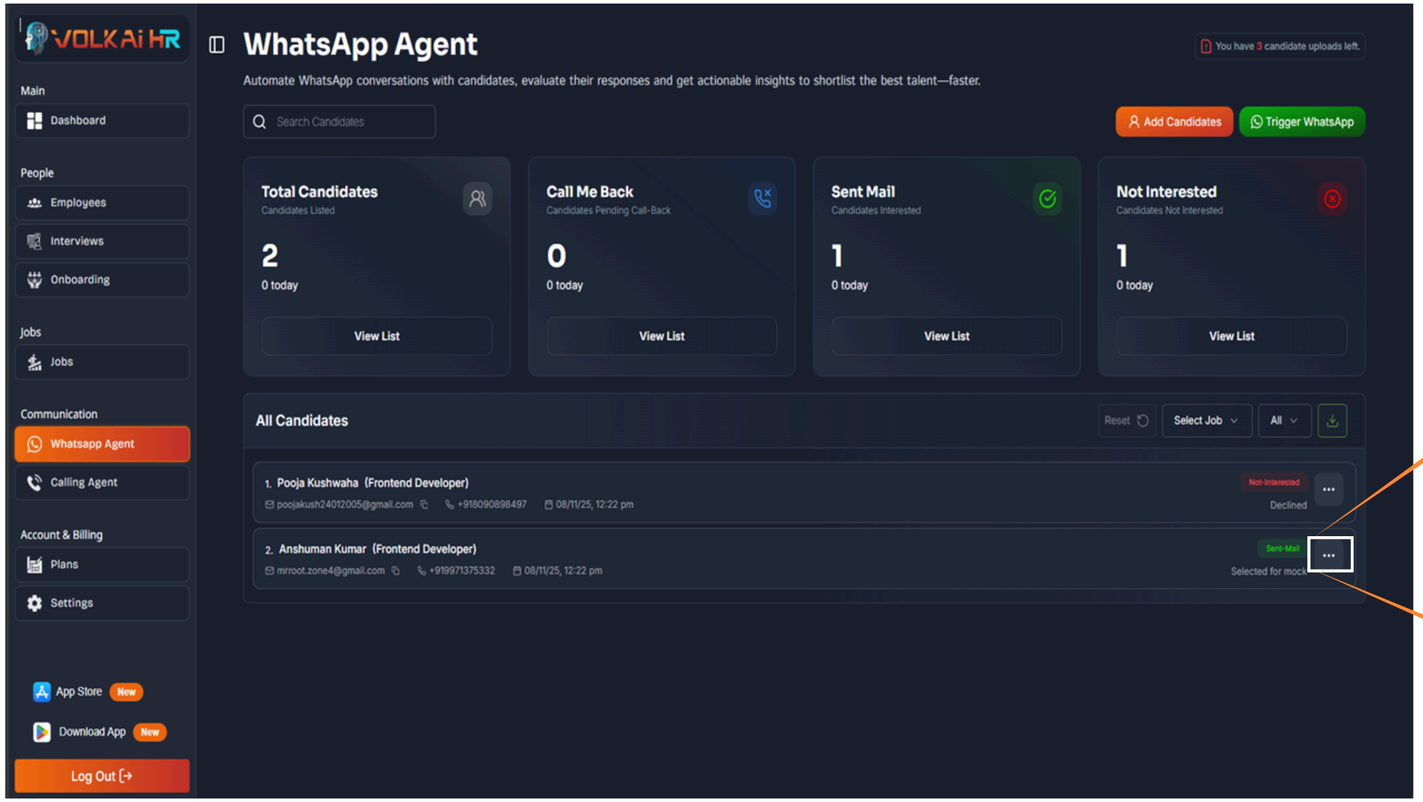
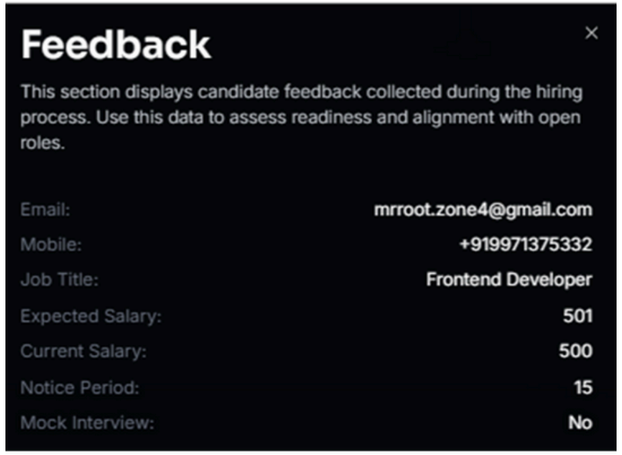
Candidate Sourcing Using WhatsApp Agent

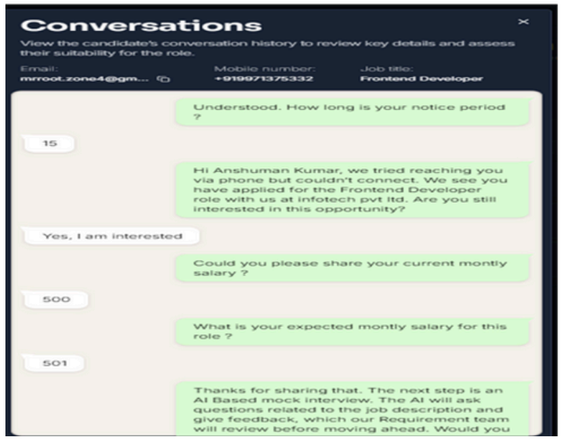


- By clicking on add candidate button you'll be able to add candidates, you can either add a zip file (If less than 40 resumes) or a CSV file ensure it matches the sample file format.
- AI automatically parses and structures data from uploaded resumes (skills, experience, education).
- "Once the candidates are added, WhatsApp messages can be triggered by clicking the 'Trigger' button. The candidates will then receive messages related to their job application.
- The WhatsApp Agent page allows you to update the candidate's name, email address, and phone number, as well as review their chat history and feedback.

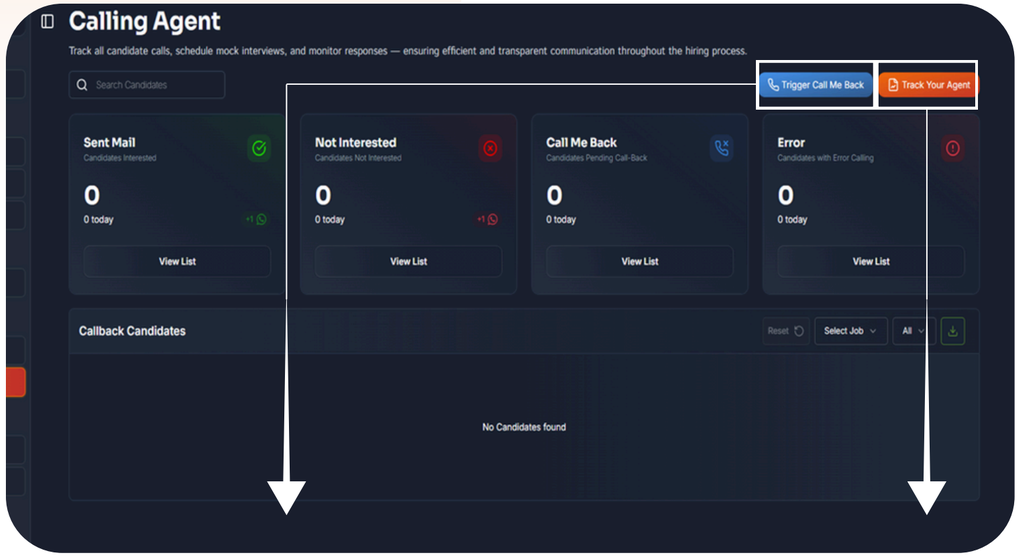
- The WhatsApp Agent page allows you to update the candidate's name, email address, and phone number, as well as review their **chat history** and **feedback.**







Calling Agent



Calling Agent can be used to trigger calls to those who have not responded to the message on whatsapp.
We can track calling agent progress and check out conversations too.

Clicking on “Trigger call me back” will call the candidates who have not responded

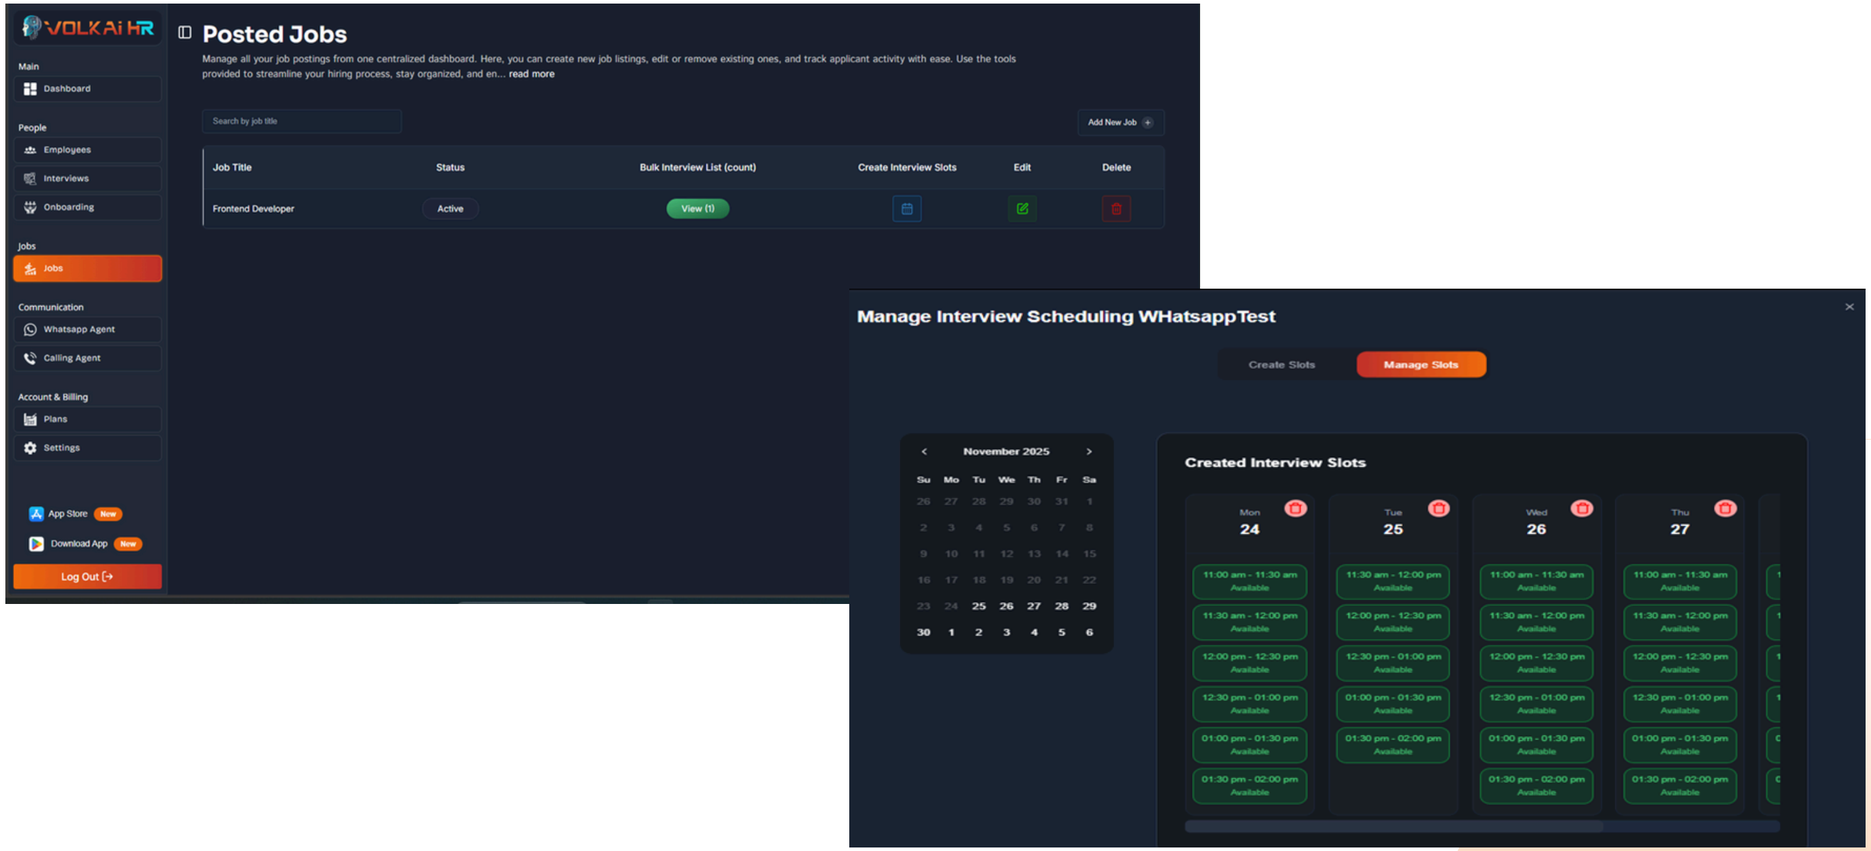
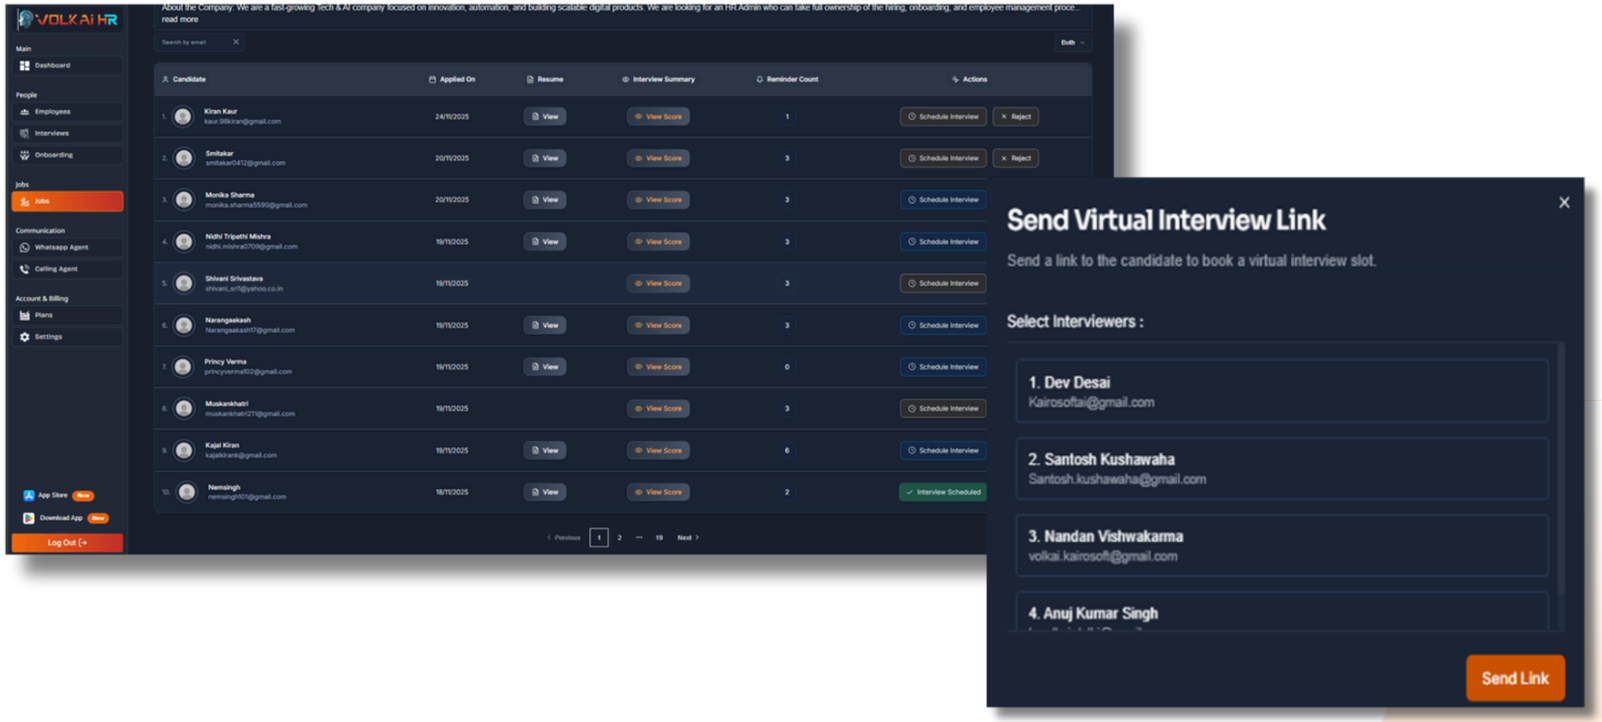
Candidate Sourcing

- Companies can view candidate pipelines for each job (Applied, Contacted, Interview Scheduled, Shortlisted, Hired).
- Access AI message/call logs, transcripts, and feedback reports — all auto-attached to candidate profiles.
- Agencies do not conduct mock interviews inside the agency dashboard (that's a candidate feature).
- Bulk interview list, you can check candidate, applied on data, Resume interview either reject or schedule interview" by using the respective buttons.
- Recruiters can shortlist, reject, or forward candidates to clients with one click.
- Generate internal reports and collaborate within the recruitment team.

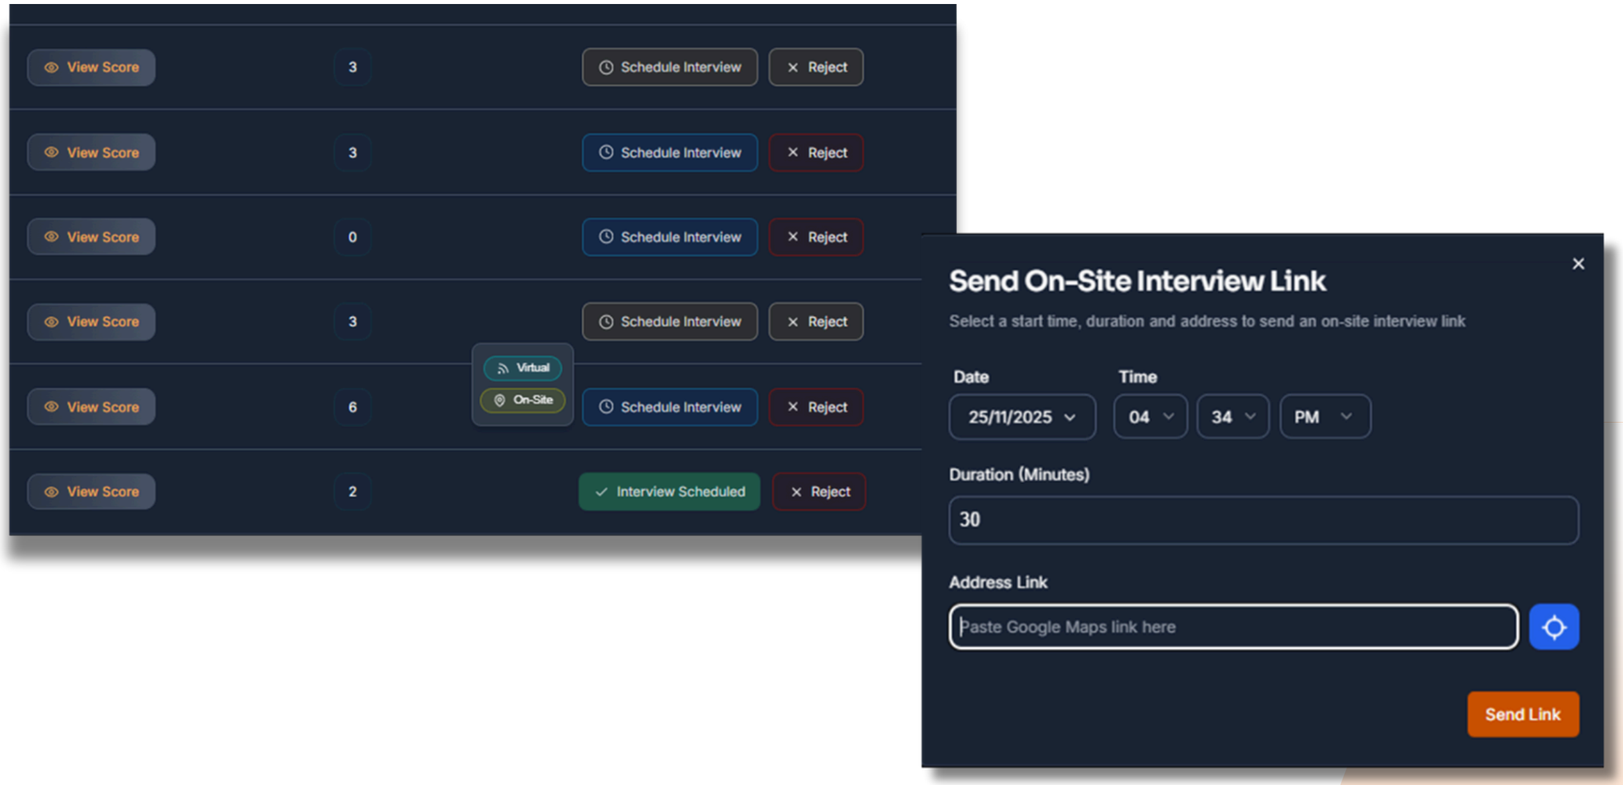
- After reviewing the scores, we can **schedule slots** for the candidates' next round."
"Choose a **date** from the calendar, set the **session time** and **duration**, and click 'Next' to continue.



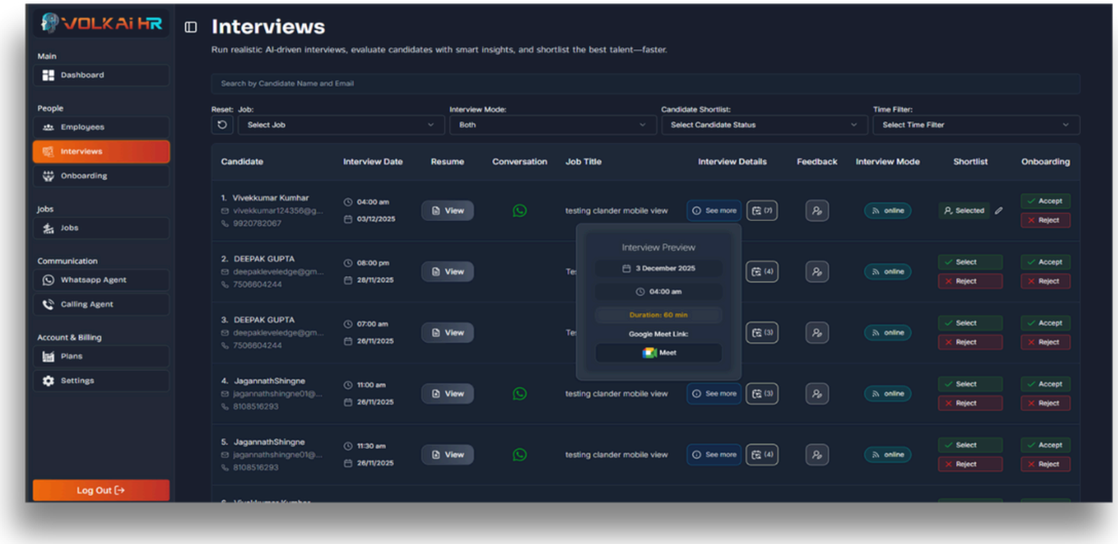
- After creating the slots, you can schedule the interview by clicking **‘Schedule Interview’**. Then select **‘Virtual’,** choose the **interviewers,** and click **‘Send Link’.**



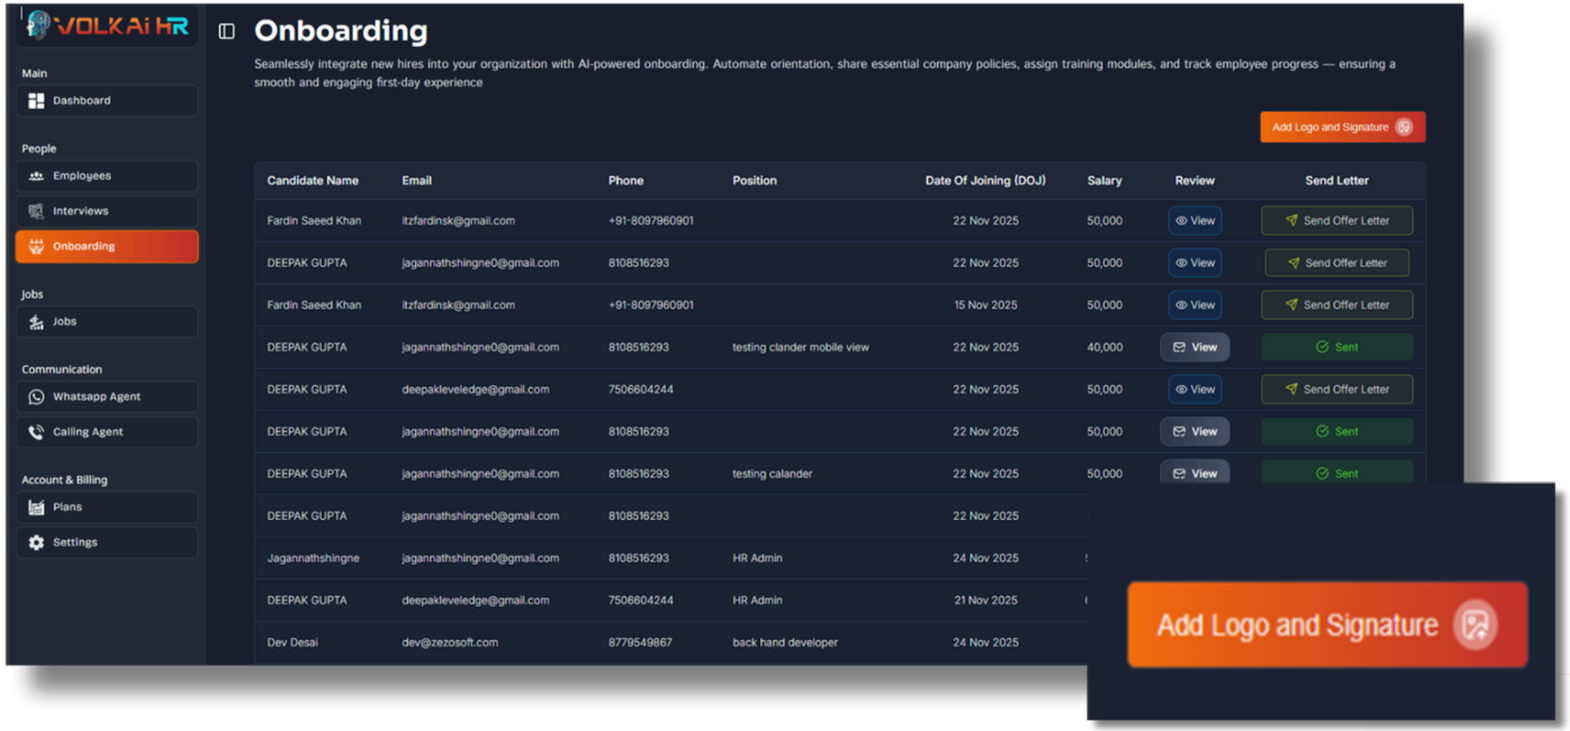
- The Job page also allows you to schedule an **On-Site interview.** Enter the interview date, time, duration, and include the address link to complete the setup.



- The Interview page displays comprehensive candidate information such as interview date and time, resume, WhatsApp chat history, and assigned job title.”
- “Clicking ‘See More’ opens the interview preview, where you can **review details** and **submit feedback**. This section also includes options to either select or reject the candidate.”



- After Round 1, you can **schedule the Round 2 interview** from the Interview page. Click the indicated icon, then choose either the Virtual or On-Site option.”
- “For selected candidates, click ‘Accept’ under the Onboarding section. For candidates who are not selected, choose the ‘Reject’ option.”



- Upon selection, the **candidate's details** will be displayed on the **Onboarding page**. This section provides their designation and salary information, and allows you to send the offer letter to the registered email ID."
- "Companies have the option to **upload** their **logo** and **signature** prior to sending the offer letter"
